Quick Decorating Tips

Crepe/Ribbon Cluster

Air filled balloons can hang in bunches throughout the party area. Arrange them in clusters like the ones above. Use three colors of crepe paper streamers and three colors of curling ribbon to create the effect of picture #3.

Place them in doorways, bank banners, or tape at corners of rooms; hang from light fixtures or on each side of window treatments. Place them inside and out. If you are draping streamers in the room use a

cluster at each corner of the room from a center cluster, all connected with crepe streamers twisted or not.

Step C
Finished Crepe Rosette

Crepe Paper rosettes make any corner of the room look terrific. Or you can use to decorate the buffet/cake table (pin onto corners of table cloth or arrange around cake), pin on curtains, use with balloon clusters and banners. You may use wide satin ribbon to make rosettes, as well.

Step A: Use three rolls of crepe, cut end at a slant. Measure 22" of crepe and hold mark with your fingers. Measure 4" and fold crepe back onto itself. Repeat until you have 6 layers of 4" loops. (If you are doing a number of these you can lay crepe/ribbon on a table and mark measurements with masking tape.)

Step B: When you have created the last loop continue the crepe to the beginning slanted ends and cut at a slant. This will give you 6 tails. Tie a piece of curling ribbon or wire around the base of the loops making sure to secure tightly.

Step C: Separate each group of loops, alternating colors, and give each a $\frac{1}{4}$ twist to keep them from sliding back into each other. Inserting 2 or 3 fingers inside each loop, spread apart all the way down to the base to fluff and smooth.

TABLE DECORATIONS

Spread your coordinating table-cover on your party table. If the table can be damaged, be sure to place a protective cover on first.

Gather together items you want to use for decorating, some ideas are:

- Theme-related toys
- Theme-related or coordinating confetti
- Honeycomb theme centerpieces
- Metallic wire garland
- Assorted color curling ribbon
- Theme related molded candles
- Balloon Bouquet with decorative weight

Arrange items on your table attractively. Setting out the theme tableware will make an impact when guests arrive. Cut several 1 to 2 foot pieces of curling ribbon. Curl sections of the ribbon and scatter around table along with theme confetti focusing on your center grouping which can consist of your cake, a centerpiece, toys or balloons. Weaving wire garland around table décor can create a unique effect.
