

# Party Equipment Rentals

**CHAUVET.**  
Value • Innovation • Performance

## BUBBLE MACHINE

**Rental Rate 24 Hours**  
**\$30.00**

Includes 1 Qt Bubble Fluid  
(\$50 refundable Deposit)

### Operation

Place the machine on a level surface and loosen the two thumbscrews for fluid tank access, see diagram below (fig.1). This will allow the whole of the top cover to be lifted revealing the fluid tank in the base. Fill the tank with supplied bubble fluid only. Replace the cover and tighten screws. Plug into the main power supply and stand back in amazement as you fill the area with hundreds of bubbles! Please make sure that no foreign matter gets sucked in or tangled into the motor in back of bubble machine. *After use, ensure that all bubble fluid is drained before moving.*

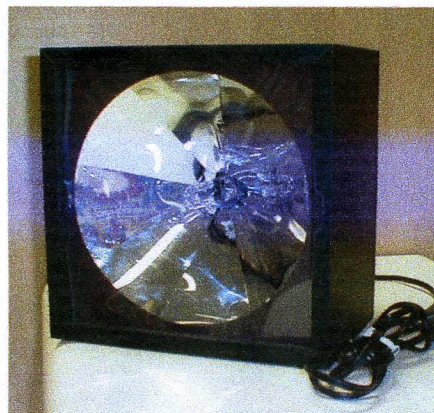

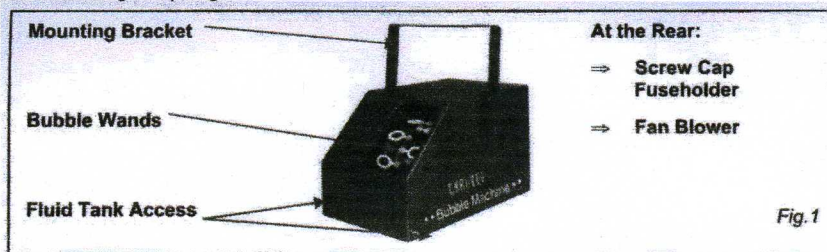

### Cleaning

**To avoid additional cleaning charges please make sure all fluid is wiped from machine before you return to our store.**

1. While unit is unplugged loosen thumbscrews and lift cover to reveal fluid tank.
2. Empty all bubble fluid from the tank and replace with warm water. Plug unit in and allow to run as usual, until all wands appear to be free of residue. Empty water from reservoir.
3. Wipe down all surfaces with water and soft towels. **DO NOT IMMERSE MACHINE IN WATER!!!**

### Caution

- Do not obstruct the bubble wands. Never allow children to place fingers inside the front of the machine.
- Do not leave machine unattended.
- Danger of Slipping. Bubble fluid produces a slippery residue.
- Always disconnect from main power supply before cleaning or servicing.
- Never drink bubble fluid. If ingested, call a doctor immediately. If bubble fluid comes into contact with skin or eyes, rinse thoroughly with water.
- Beware of overfilling or spillage.

**Super Strobe Light**  
With Adjustable Speed Control
